

SIRENS OF SILENCE: CARE NEEDS NO WORDS

SIRENS OF SILENCE REVIEW COMMITTEE

The *Sirens of Silence* program was created by the Los Angeles County Fire Department, in collaboration with and vetted by parents, advocates, clinicians/therapists, educators, and physicians who work with individuals with Autism Spectrum Disorder (ASD), to bring awareness and foster inclusivity to the growing population with special needs.

The *Sirens of Silence's* logo consists of different shapes of puzzle pieces in various shades of red, representing all the different people who come together to form the heart of this program, embraced by the gold ribbon which symbolizes the Department's commitment to providing meaningful and professional care and service to everyone.

Thank you to members of the review committee and all those who contributed to the development and creation of the *Sirens of Silence* program and its materials.

This program will continue to strengthen and evolve as we receive additional input from the ASD community.

REVIEW COMMITTEE:

Clayton Kazan, M.D., LACoFD Medical Director
