OCEAN LIFEGUARD CANDIDATE

FIRE CHIEF DARYL L. OSBY

Daryl L. Osby has the distinct honor of serving as the ninth Fire Chief of the Los Angeles County Fire Department. With an education in business and executive management and a progressive outlook towards the future, Fire Chief Daryl Osby strives to ensure the Department maintains its acclaimed reputation through sharing of best practices with fellow fire agencies and creating an inclusive work environment representative of the diversity of Los Angeles County.

Los Angeles County Fire Chief Daryl Osby oversees the delivery of fire suppression and life safety services to more than 4.1 million residents and commercial businesses in 59 cities, along 72 miles of coastline, and within all 2,300-square-miles of the County's unincorporated areas. The Department operates out of 175 fire stations and 24 lifeguard stations, and commissions 4,800 emergency responders and business professionals utilizing an annual budget of just over \$1 billion. In addition, the Department provides health hazardous materials and forestry services throughout the County.

Cultivating a workforce that can meet the unique needs of the 21st Century is a challenge that Fire Chief Daryl Osby welcomes. He achieves this through strategic planning, in which his priorities include focusing on the safety and welfare of personnel, ensuring our service delivery model meets the diverse needs of the communities we protect, practicing sound fiscal strategies, preparing communities for major disasters, and developing career pathways for succession planning. Safeguarding the Department's reputation of excellence and innovation, he invests heavily in our future leaders through youth mentoring programs and stays connected to our residents through his affiliation with several community organizations.

He heads one of the largest emergency service agencies in the world. This includes the Los Angeles County Ocean Lifeguard Division. Chief Osby is working with the Lifeguard Division to improve hiring and recruitment practices, and community outreach efforts.

In 2015, the Lifeguard Recruitment Unit was reinstated by the County of Los Angeles Board of Supervisors after an eight-year absence. The Lifeguard Recruitment Unit is in the second consecutive year of its revitalized recruitment program. The Recruitment Unit's goal is to continue to grow a workforce that represents the communities it serves.

HOW TO BECOME AN OCEAN LIFEGUARD CANDIDATE

QUALIFICATIONS

CANDIDATE REQUIREMENTS

Please use the link below to view the current requirements noted on the **class specification***:

<http://bit.ly/oceanlgcand>

1. Graduation from high school or its equivalent

2. Valid California Class C Driver License

3. At least 18 years of age

THE HIRING PROCESS

APPLYING

If the filing period is not yet open, we encourage interested applicants to complete a job interest card at  bit.ly/LACo-interestcard, so they can be notified once the bulletin is posted.

Once the filing period is open, interested applicants must complete a Los Angeles County employment application at:

 <https://www.governmentjobs.com/careers/lacounty>

TESTING

Once posted, the bulletin will include the pertinent information with respect to study guides and additional resources, if any. We encourage interested applicants to review the job classification* for Ocean Lifeguard Candidate to have an idea of the minimum requirements and basic competencies of the job. **However, it is required that all candidates compete in a 1,000-meter ocean swim.**

Please use the link below to view the current requirements noted on the class specification.

 <http://bit.ly/oceanlgcand>

BACKGROUND INVESTIGATION

Criminal history for each candidate will be individually assessed. The Department complies with its obligations under all local, state, and federal laws when making hiring decisions.

MEDICAL EVALUATION

A pre-placement medical evaluation is administered after a conditional offer of employment is made, and is designed to determine an applicant's ability to safely perform the essential functions of the job with or without reasonable accommodation. The Department complies with its obligations with all local, state, and federal laws when making hiring decisions.

*

It is important to note that the general requirements and duties set forth in the class specification are subject to change, and, as such, may differ from the actual job bulletin. The information published on the job bulletin will be based on the Department's needs.

OCEAN LIFEGUARD TRAINING ACADEMY

Candidates who successfully pass the examination will be placed on the Department's eligibility list to be considered into a future Ocean Lifeguard Training Academy. The LACoFD Ocean Lifeguard Training Academy is a rigorous 100-hour training course held over five consecutive weekends at multiple LA County facilities. Candidates are paid during the Training Academy. Ocean Lifeguard Candidates are taught the principles of lifeguarding with an emphasis on Ocean Dynamics, Rescues, First-Aid, Rescue Boat Operations, Communications, Public Relations, as well as specific Department policies and procedures that will ensure success in a career as an Ocean Lifeguard Recurrent.

Visit the following links to review the application process, register for updates on the jobs that interest you, and to get informed and prepared by using the Job Search Guide, Test Prep System and study guides.

Test prep and study guides:

The screenshot shows the "Job Search Toolkit" page on the Los Angeles County Human Resources website. The page features three main sections, each with a guide cover and a "DOWNLOAD GUIDE" button:

- Job Search Guide:** "Learn everything you need to know to search for a job on the County's new online Job Application System."
- Effective Interviewing:** "Learn about the role of the interview and how to ready yourself for different types of interview questions."
- Creating Effective Resumes:** "Learn about the role of a resume (it's different than you may think!) and how to make yours shine."

FAQ

IS A PERSON WITH A FELONY CONVICTION ELIGIBLE FOR HIRE?

Criminal history for each candidate will be individually assessed. The department complies with its obligations under all local, state and federal laws when making hiring decisions.

IF A PERSON IS NOT A CURRENT PERMANENT RESIDENT OF THE UNITED STATES OR IS NOT IN THE PROCESS, ARE THEY ELIGIBLE TO BE HIRED?

We determine an applicant’s eligibility to compete for the examination based on the Minimum Selection Requirements listed on the job bulletin. These requirements include applicants be a United States citizen or permanent resident who is eligible for and has applied for citizenship.

WHAT ABOUT INDIVIDUALS WITH DISABILITIES?

The pre-placement medical evaluation is administered after a conditional offer of employment is made, and is designed to determine an applicant’s ability to safely perform the essential functions of the job with or without reasonable accommodation. The department complies with its obligations with all local, state and federal laws when making hiring decisions.

WHAT IS THE EDUCATIONAL REQUIREMENT?

Graduation from high school or its equivalent, or the attainment of a higher degree (AA, BA, Masters, etc.) from an accredited college or university.

WHAT IS THE CURRENT VISION REQUIREMENT?

Please use the link below to view the current vision requirements noted on the classification specification. These requirements are subject to change.

AN OCEAN LIFEGUARD'S DAY

Los Angeles County Fire Department Lifeguard Division serves 72 miles of coastline, from Nicholas Beach to Cabrillo Beach, including Catalina Island. Ocean Lifeguards have the opportunity to work a 40-hour week from the last week in June through the first week in September, pending availability of shifts. Ocean Lifeguards can make themselves available to work on an as-needed basis throughout the rest of the year.

Public safety concerns and beach operation needs can also extend an Ocean Lifeguard's daily shift. Weather, ocean conditions, and special events determine the amount of lifeguards hired each day.

What follows is an example of an Ocean Lifeguard's daily routine while working a lifeguard tower. Any of these activities may be interrupted due to an emergency call for service.

10 A.M. SHIFT STARTS: OPENING PROCEDURES

The Ocean Lifeguard arrives to the assigned lifeguard tower early to ensure proper opening procedures are complete by the assigned start time. They actively scan the area, watch the water, hang the rescue can, raise the American flag, open the shutters, set up safety cones around the tower, and designate a safe swimming area for the public.

Every Ocean Lifeguard is required to be familiar with the beach they are working, and know the ocean conditions for the day (e.g. the time and height of the tides, surf hazards, water temperature, etc.).

10:30 A.M. CHECK IN

Each morning the Ocean Lifeguard is required to check both the first aid and rescue equipment in the tower, making sure all materials are present and in working order. Ocean Lifeguards check with the Ocean Lifeguard Specialists in their assigned area to find out about special events and safety updates regarding water quality, weather, and sea life.

11 A.M. WORKOUT

While watching the water and beach visitors, Ocean Lifeguards are encouraged to workout for 20-30 minutes between adjacent lifeguard towers by running, swimming, and doing calisthenics.

12 P.M. LUNCH/HYDRATION

There is no specific lunch hour, so Ocean Lifeguards are encouraged to bring water and food to the tower for proper hydration and nutrition between required daily activities. Ocean Lifeguards always watch the water and must be prepared to respond to emergencies.

1 P.M. DAILY WORK

Throughout the day, the Ocean Lifeguard will have contact with beach goers while patrolling their area. They will answer questions, assist individuals in distress through ocean rescue work, administer first aid, and educate the public about hazardous beach conditions.

3 P.M. TRAINING

To keep Ocean Lifeguard staff up-to-date, they receive training in areas such as knots, first aid, rescue water craft, radios, and underwater rescue techniques. All of these activities are designed to keep Lifeguard staff current with new rescue techniques and life-saving skills.

5 P.M. CLOSING PROCEDURES

Once beach activity slows and the Ocean Lifeguard Specialist approves a closing time, the Ocean Lifeguard reports statistics for the day, including rescues, medical aids, preventions, ordinances, and any missing persons. The Ocean Lifeguard gathers the swim flags and safety cones surrounding the tower, which signals to beach goers that closing time is approaching. Ocean Lifeguards make contact with remaining beach goers about the upcoming closure and warns them about the risk of swimming without a lifeguard.

6 P.M. SHIFT END

As the sun sets and beach goers leave, Ocean Lifeguards perform final scans of the area and close the tower by bringing in the can, taking down the American flag, closing the shutters, and informing the public that no lifeguard is on duty.

LOCAL EMT PROGRAMS

Los Angeles County Ocean Lifeguards respond to a wide range of emergency medical calls dispatched from our 9-1-1 call center. You can earn your Emergency Medical Technician (EMT) certification through one of the following programs. While EMT Certification is not currently a requirement, those who are certified may be eligible for a bonus.

* The EMT programs listed here were approved and compiled by the Los Angeles County Emergency Medical Services Agency as of July 2018.
