

Fuel Modification Questions - Woolsey Fire Rebuilds

Please visit our website for comprehensive information on how to prepare a plan, required forms, and planting guidelines - <https://www.fire.lacounty.gov/forestry-division/forestry-fuelmodification/>

Specific questions may be emailed to ForestryFuelModification@fire.lacounty.gov, or call 626 922-5205.

Q. What is a Fuel Modification Plan? (Please see example plan at our webpage)

A Fuel Modification Plan is a landscape plan showing **all** proposed and existing-to-remain vegetation on the property. The plan includes a site plan with the building footprint and, Zone A, Zone B, and Zone C.

Q. Do I need a Licensed Landscape Architect?

No. Anyone can prepare a plan as long as it is **drawn to scale** and has the correct scientific plant names (genus and species; see example plan at our webpage).

Q. Do I need to submit a Fuel Modification Plan if I am not planning on planting anything?

Yes. The plan must show all existing vegetation that will remain. If you are not proposing additional planting, please clearly state on the plan "No Proposed Planting."

Q. If I have an existing Fuel Modification Plan, do I need to resubmit another?

Any changes to the structure sq. ft./footprint or planting requires a new submittal. If nothing will change, the existing Fuel Modification plan remains current.

Q. Do Fuel Modification Plans expire?

No, as long as there are no changes to the approved plan.

Q. Do I need to record and notarize another Covenant and Agree if I already have one on file?

No, the Covenant and Agreement travels with the property of the structure.

Q. Are you waiving fees? No, plan check fees are still required.

Q. How do I submit my Fuel Modification plan?

Plans can be mailed or dropped off at the following locations:

Los Angeles County Fire Department
Attention: Forestry Division, Fuel Modification
605 N. Angeleno Ave.
Azusa, CA 91702
Phone: (626) 969-5205
Drop Off: M – F 8:00 am to 4:00 pm

26600 Agoura Rd.
Calabasas, CA 91302
(818) 880-4518
Drop Off: Tues. & Wed. 8am to 12pm
On-Line Submittals: <https://arcg.is/1njKey>

Q. How far do the Fuel Modification Zones extend from the structure?

Fuel Modification zones only apply within the property lines.

Zone A extends from the structure to 30 feet. Zone B extends from the edge of Zone A to 100 ft. Zone C extends from the edge of Zone B up to 200 feet from the structure (based on site conditions).

Q. Are Fuel Modification plans the same as the City's Landscape plans?

No, but the planting should be identical.
