Location: Lake Hughes, CA (Unincorporated Los Angeles County)

Acres Burned:	27,041	Structures Threatened:	1,329
Containment:	48%	Structures Destroyed:	12
Fire Started:	August 12, 2020 at 3:38 p.m.	Structures Damaged:	6
Cause:	Under investigation	Outbuildings Destroyed:	21
		Injuries:	1

Total Assigned Personnel: 1,977

Engines: 193 **Hand Crews:** 27 **Dozers:** 41 **Water Tenders:** 22 **Helicopter:** 13

Current Situation: The Lake Fire was active overnight on the west flank in the areas of Atmore Meadows and Burnt Peak Canyon. Dozers and hand crews made good progress on containment lines on the southwest edge of the fire between Burrow and Rattlesnake Canyons. Firefighters continue to be challenged with rugged terrain, high temperatures, critically dry fuels and drought stressed trees.

Crews are using tactical firing operations to help establish containment lines as conditions allow. This is an effective tool to reduce vegetation (fuel) to establish and reinforce containment lines.

Mandatory evacuations remain in place. The fire started in the Angeles National Forest near Lake Hughes. It is moving north and west burning in 100-year-old fuels consisting of Big Cone Douglas Fir, Oak and Gray Pine. The fire remains eight miles northeast of Interstate 5 and south of Highway 138.

Firefighters continue to mop up in dense vegetation on the east flank of the fire, west of Lake Hughes. The fire line has held for several days in this area.

There has been one minor reportable injury to a firefighter.

Weather: An excessive heat warning for dangerously hot conditions along with high temperatures between 98' and 110' degrees is in effect until 9 p.m. this evening for the Santa Clarita, San Fernando and San Gabriel Valleys. Very hot and critically dry conditions will remain today as high pressure is anchored over the region. Winds are forecasted out of the northwest at 5-15 mph with gusts up to 25 mph at the higher elevations. The threat of thunderstorms, which caused lightning strikes over the last few days, is greatly diminished today.

Evacuations: Lake Hughes Road west of Pine Canyon and north of Dry Gulch Road. East of Ridge Route Road. West of Lake Hughes Road and Fire Station 78. North of Pine Canyon and Lake Hughes. Road. South of SR-138.

Evacuation Point(s): Evacuation points will be opened as needed. If you should need assistance, please call 1-800-Red-Cross (1-800-733-2767)

Road Closures: 3 Points Road from Hwy 138 to Pine Canyon, Old Ridge Route from Hwy 138 to Pine Canyon Road, Lake Hughes Road from Ridge Route Road to Pine Canyon Road, Pine Canyon Road

from Ridge Route Road to Lake Hughes Road, Dry Gulch Road/San Francisquito Mtwy from San Francisquito Canyon Road to Lake Hughes Road.

Additional Closures: The Castaic Lake Recreation Area and surrounding areas are being used in support of fire operations. Both upper and lower lakes along with all recreation facilities are closed until further notice.

Fire Forest Closure/Restrictions: The Angeles National Forest has closed all National Forest System lands within the Lake Fire closure area by Order 05-01-20-6. The fire danger in the Angeles National Forest has continued to increase, and on Saturday, August 1st, the Forest changed its Fire Danger Level from VERY HIGH to EXTREME. The Angeles Forest Order No. 05-01-20-05 prohibits all campfires within the Angeles National Forest. The Angeles uses a 6 Level Fire Danger Rating System to determine fire restrictions which it adjusts throughout the year. No fires of any type including cooking stoves, lanterns, and similar devices which use propane, white gas, or similar fuels are allowed at this time.

Animal Care: Antelope Valley Fairgrounds (Large Animals Only) 2551 W Avenue H, Lancaster, CA 93536

Smoke Outlook: The South Coast Air Quality Management District has issued an air quality advisory for the Lake and Ranch 2 Fires for San Bernardino and Los Angeles Counties. If you are in area impacted by smoke, limit your exposure by remaining indoors with windows and doors closed or seeking alternate shelter and avoiding vigorous physical activity.

Cooperating Agencies: County of Los Angeles Sheriff's Department, California Highway Patrol, County of Los Angeles Public Works, County of Los Angeles Animal Care & Control, County of Los Angeles Parks & Recreation, Red Cross, and Southern California Edison.

Safety Message: Beat the heat! Take extra precautions if you work or spend time outside. When possible reschedule strenuous activities to early morning or evening. Drink plenty of fluids, stay in an air-conditioned room, stay out of the sun, and check up on relatives and neighbors. Anyone overcome by heat should be moved to a cool and shaded location. Heat stroke is an emergency! Call 9-1-1.

Please use caution while driving as firefighters and equipment are working in the area today.

About the forest: The Angeles National Forest was established by Executive Order in December 1892. It covers about 700,000 acres and is the backyard playground to the huge metropolitan area of Los Angeles. The Angeles manages the watersheds within its boundaries to provide valuable water to southern California and to protect surrounding communities from catastrophic floods.
